## **Problem Statement and Project Overview**

**Problem Statement** 

AtliQ Hardware is currently facing performance challenges due to the increasing size and complexity of its Excel files. To address this, the company has formed a dedicated team of data analysts to leverage MySQL for extracting valuable insights and enhancing operational efficiency.

**Project Overview** 

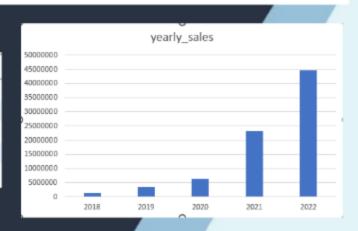

The scope of this project entails conducting an in-depth analysis of the dataset provided by AtilQ Hardware. The primary goal is to derive actionable insights regarding sales performance, market dynamics, customer behavior, and to forecast supply chain trends. Generate a report detailing the individual product sales for Croma India customer throughout the fiscal year 2021
